PROFESSIONAL SUMMARY

Product Design Lead with 6 years of experience, specializing in AI Agents & Agentic Chatbot UX. I've shipped 20+ AI-native products from 0→1, working directly with founders and engineering to turn ambiguous LLM behavior into interfaces people actually trust. I use AI inside my own process too, synthetic user testing, rapid prototyping, generative UI exploration not just as the subject of my designs.

WORK EXPERIENCE

Product Design Lead (Agentic AI) *September 2025 - Present*
CPLUSOFT | Islamabad, Pakistan

- Leading team of designers to create end-to-end design for AI agents, chatbots, and SaaS products, turning complex AI behavior into simple, trustworthy experiences. I work closely with founders and engineering from 0→1, shaping product strategy, UX, and design systems.
- I also use AI throughout my design workflow — from rapid prototyping and synthetic user testing to exploring new UI directions — to move from ideas to better products, faster.

Senior UI/UX Engineer *September 2024 - September 2025*
CPLUSOFT | Islamabad, Pakistan

- Designed end-to-end AI products including chatbots, agentic workflows, and intelligent user journeys, turning complex LLM behavior into simple, trustworthy experiences across SaaS, fintech, and Web3.
- Owned UX from user flows and wireframes to high-fidelity UI, working closely with engineering from discovery to launch.
- Used AI throughout the design process for rapid prototyping, synthetic user testing, and exploring new UI ideas, while contributing to design systems and UX standards.

UI/UX Designer *October 2023 - August 2024*
AstroLabs | UAE

- Analysed technical requirements to determine optimal solutions.
- Designed end-to-end website and mobile app user experience.
- Brainstormed and implemented innovative ideas for improving products and user experiences.

UX/UI Designer *August 2021 - June 2023*
Consultancy Outfit | Islamabad, UK

- Collaborated with a team of developers and product managers to design and launch multiple web and mobile applications.
- Conducted user research to gather feedback and identify areas for improvement, resulting in a 30% increase in user engagement.
- Designed wireframes and prototypes using Figma, ensuring all designs met usability and accessibility standards.
- Worked closely with developers to ensure designs were accurately implemented and maintained design consistency throughout the product lifecycle.
- Utilized agile development methodologies to stay on schedule and meet project milestones.
- Iterated on interface elements based on analytics insights, increasing user task accuracy and contributing to higher overall platform reliability.

SKILLS

Design Systems, Product Design, Journey Mapping, UX Mapping, Product Strategy, AI Integration, Visual Design, User Flows, Wireframing, Mobile Interface Design, Web Design

User Experience (UX), User Interface Design, Interaction Design, Visual Storytelling, Agile Methodology, Stakeholder Management, Creative Direction, User Testing, Brand Consistency, User Research, Prototyping, AI Workflows

COURSES & CERTIFICATIONS

- Foundations of User Experience (UX) Design — Google (January 2023)

LANGUAGES

- English — C2 (Proficient)
- Arabic — A1 (Beginner)
